

EDUCATION FRESHMAN LEARNING COMMUNITY

WHAT ARE FRESHMAN LEARNING COMMUNITIES?

Freshman Learning Communities are designed to provide first-year students with a supportive and cohesive academic environment. These communities facilitate a successful start to their university experience by allowing students to enroll in courses together during their first year. In the fall semester, students will participate in UNIV 1101: Bearkat U, along with core and major-specific courses, alongside peers who share similar interests and goals.

Students in learning communities will:

- Form lasting connections with faculty dedicated to your success
- Gain early access to campus opportunities and academic support
