For more information or
application materials, visit

www.shsu.edu/grants/brite/urise/

Note: Program is funded by a
generous grant from the National
Institutes of Health, so availability
is contingent on receipt of
expected grant funding

Fellows will:

- Receive a \$14,340 trainee stipend each year for three years
- Have 60% of tuition and fees paid by the program for three years
- Participate in meetings and activities with other fellows
- Receive training in research, ethics, scientific writing, and extensive mentorship support from a team of outstanding faculty
- Carry out a research project at SHSU and gain experience carrying out paid summer research at one of our outstanding partner biomedical research institutions

Applications are due:

April 15th, 2025 @ 5pm
